

Screenshot of the Databricks interface showing the pipeline creation process. The browser address bar shows the URL: `adb-3451178819409431.11.azuredatabricks.net/pipelines/create?o=3451178819409431`.

The interface includes a sidebar with navigation options: New, Workspace, Recents, Catalog, Workflows, Compute, Data Engineering, Job Runs, Machine Learning, Playground, Experiments, Features, Models, and Serving. The main content area displays the "Advanced" configuration for a pipeline, including fields for Channel (Current), Instance types, Worker type (Select an instance type), and Driver type (Same as worker). A "Summary" panel on the right shows the configuration: 2-6 DBU/h.

Buttons at the bottom right include "Cancel" and "Create and start".

The Windows taskbar at the bottom shows the system clock as 10:00 on 04-12-2024, along with weather information (26°C, Mostly sunny) and various application icons.
