Subtotals in Sql

Name: Aathirainathan P

Date: 06-11-2024

1.Stored Procedure:

```
SQLQuery1.sql - P...(PUMA\pumak (63))*   ⊣ ✕
    use mydb;
    insert into customer values(123,'Krishna','Kerala',28);
    insert into customer values(2456,'Kavin','TN',26);
    insert into customer values(3478,'Akash','TN',24);

    CREATE PROCEDURE
    GetCustomerInf
    AS
    BEGIN
        SELECT *
        FROM customer
        WHERE Age > 25;
    END;

    GetCustomerInf;
```
